Policies: Behaviour Code

BEHAVIOUR CODE

All students in our school have the right to a safe, caring and supportive learning environment. Through our behaviour code we model and teach positive behaviour. It is based on the fundamental principle that all students have the right and responsibility to learn and teachers have the right and responsibility to teach.

The following values underpin our behaviour code. They are not culturally specific.

- **Tolerance**: Acceptance and awareness of difference.
- **Respect**: Treating others with consideration and regard.
- **Honesty**: Being truthful, requiring truth from others, and ensuring consistency between words and actions.
- **Care**: Caring for self and showing interest and concern for others.
- **Excellence**: Setting high personal standards, seeking to accomplish and perform at one’s best.
- **Social justice**: Being committed to fair treatment of all. Being included, including others and listening.
- **Trust**: Actively creating a climate of mutual confidence.
- **Responsibility**: Being accountable and responsible for one’s own actions including:
  - exercising of self discipline
  - resolving differences in a constructive, non-violent manner
  - maintenance and preservation of the school environment.
- **Freedom**: Enjoying all rights and privileges, understanding and accepting all responsibilities.
- **Ethics**: Acting in accordance with generally agreed rules and/or standards for acceptable conduct or practice.

“We ask all parents, caregivers, teachers and support personnel to support these values and model them for the benefit of the students.”

The School Discipline Policy provides a framework for the development of such learning communities.

A ‘School Behaviour Code’ describes a range of specific strategies developed to meet the varying needs of students in school settings and the varying needs and expectations of local communities (families, students, staff, wider community and service providers.)
